SÜDA expands the range of dry technique devices with the SÜDA V eco

Karlsruhe, 24.04.2023: SÜDA utilizes years of experience and a continuous accumulation of knowledge, for the development and production of its own products. Thus, the current needs of the industry are translated into new technical solutions. Therefore, the brand presents the new foot care device SÜDA V eco.

The dry technique device is particularly recommended for beginners, as well as chiropodists and podiatrists, who prefer a device with a classic operation. SÜDA has used tried and tested technologies for the development of the SÜDA V eco and thus ensures a long service life. Easy-to-operate rotary knobs, allow the rotation speed and suction power to be individually adjusted.

Since the SÜDA V eco is lightweight and also runs on battery power, it is well suited for mobile use. It enables podiatrists and podiatrists to work flexibly and precisely. Further improvements to previous models can be seen in the following points: Volume, hose, dust bag, closure mechanism and handpiece suspension.

"We are pleased to launch another dry technology device that is perfect as an entry-level option and enables professional work." - Julian La Fontaine, Managing Director IONTO Health & Beauty GmbH.
